InStat Index

unique rating parameter designed by InStat that is calculated automatically according to the algorithm and measures the performance level. The rating is based on the outcome of every single possession of the team

Goals

scoring sequence registered by the referee

Assist

productive action that is recorded for a maximum of 2 players of the team; a pass or any other touch, which helped the team to score a goal

Plus/Minus (+/-)

player parameter, calculated as a differential of goals scored and goals conceded with him on the ice. Power play conversions do not affect the parameter

Penalties

foul called by a referee, which results in a personal or a team penalty

Penalty time

summary parameter which records a penalty time after all fouls conducted

Shot

action conducted by a player in an attempt to score a goal which results in directing the puck goalwards

CORSI

individual parameter, calculated as a differential of both teams' total shots at even strength in a "+/-" format with the player present on the ice

Hit

player action, directed at taking the puck away from the opponent through a forcible impact and a contact with the opp. body

Faceoff

method used to begin play at the beginning of a period or after a stoppage of play. Playing time countdown starts (and continues) from the faceoff moment.

Faceoff won

This one counts whenever one of the faceoff participants either provides his team with an advantage in the duel for the puck possession, or conducts a pronounced action (a shot, a dump in, a dump out, a dribbling attempt or a blocking of the opp. stick). In case of neither team gaining the advantage after a faceoff, a player whose team gets the possession is identified as a winner

Puck battle

duel of opposing players for the neutral puck

Puck losses

loss of control over the puck with a following possession change

Takeaway

possession change after the opp. turnover

Turnover

beginning of the puck possession after a successful faceoff or a puck recovery

Zone entry

moving the puck to the attacking zone, while keeping the possession

Breakouts

moving the puck from the defensive zone to the neutral zone, while keeping the possession

Positional attack

prolonged attack with either a shot attempt or another action, threatening the opp. goal

Counter-attack

rapid transition from the defensive zone to the attacking zone, while maintaining the possession with a following shot or another action, threatening the opp. goal

Dump in

dumping in the puck to the attacking zone with an intention of either establishing in the zone, or giving teammates some time for a change on the go

Dump out

dumping out the puck from the defensive zone with an intention of either preventing the threat to the goal, or giving teammates some time for a change on the go

Puck possession

in-game sequence that starts after a successful faceoff or a takeaway and ends after a giveaway or a stoppage

Own takeaway

puck recovery after a shot on goal or a wide shot, after which new team's possession starts

Opp. takeaway

transition of possession to the opponent after a shot
